

**An extraordinary opportunity for companies
to promote their capabilities to a high-profile international audience**

Polymer Process Engineering '19

Location: Norcroft Conference Centre, University of Bradford

Date: Tuesday 9th - Wednesday 10th July, 2019

Audience:

- Academic Researchers from leading Chinese Universities and Research Institutes
- Senior Executives from Chinese commercial organisations
- Academic Researchers from leading Indian Universities
- Academic Researchers from UK Universities
- Senior Executives from UK commercial organisations
- Government Officials representing Chinese and UK agencies
- Senior representatives from funding organisations in China and UK

Delegates: Expected attendance between 80-100 delegates

Objectives:

- To provide a technical focus for the polymer processing and technology industries
- To discuss key developments in engineering excellence in polymer processing
- To discuss recent developments in Advanced Materials in Healthcare and Medical Devices
- To raise awareness of leading edge developments in polymer processing technology, in-process measurements and process flow modelling, and control
